## Objective

As a woman owned company, Ehrlich Interiors has expanded over the years into a full service design firm. We have the expertise and experience to manage all your interior design needs. I believe communication is a priority during the entire process. Educating our clients on the sequence of events and letting them know what to expect every step of the way is how we build trust.

## Experience

As a young adult, I would go to my grandfather's factory, which opened in 1902. Watching them reupholster furniture and make custom window treatments. In 1996 I had branched out from them and opened my own company, which is Ehrlich Interiors, LLC is located in Farmington, CT. I have worked on projects that consist of window treatments, reupholstering, space planning, new furniture, renovations and so much more. I make sure customer satisfaction is my number one priority. Without that, I would not be in business today. I have developed and nurtured clients from high profile executive to the doctor's office down the street.

Our team is passionate about what we do and I am committed to providing the best solutions and products for our clients. At Ehrlich Interiors we are business partners and solutions providers that deliver desired results through a dynamic and collaborative process.
