History

Maganti IT Resources, LLC is rapidly augmenting its client base globally as a decisive and reliable Information Technology company since 2004. We are committed to the evolution and prosperity of the communities and clients we serve with an outstanding workforce encompassing talented and dedicated professionals with experience in diverse disciplines as a Minority Business Enterprise ("MBE") certified company. Driven by creativity and a passion for advancement, we repetitively augment ourselves by embracing new growth-oriented ideas and technology to help our clients realize their full potential and equip themwith a competitive edge. We offer a range of customized and applied software solutions to clients across large and midsized companies in the financial, healthcare, banking, retail, telecom, and other industries.

With over 60 years of combined technology and management expertise from the executive team, we have built and grown in the areas of risk and control, data visualization dashboards, ERP, data analysis and information security. Through our journey, we partnered with industry tech leaders to ensure delivery of efficient solutions for clients to benefit from steady reliability and uniqueness across solutions.
