

A Quick Path to a Financially Rewarding Career!

Quality

QuikDraw Phlebotomy School, LLC is a leading trade school in Shelton, CT and it's surrounding area! We believe in providing quality education for an affordable tuition. What does the word Quality stand for with QuikDraw? It stands for the ability to provide academic career training that will prepare each student for real world practices in Phlebotomy and Medical Assisting.

We believe that employers will see our school on your Resume and recognize you as a professional that is ready to work, learn, and grow! These quality traits are encouraged and fostered here at QuikDraw Phlebotomy School, LLC. We look forward to serving you quality education as you serve your community quality care.

Training

QuikDraw offers the BEST training in Shelton, CT and it's surrounding area! With our state of the art digital Anatomy and Physiology 3D real-life interactive modules, medical field lab equipment, and life like simulations, our students receive the training they expect from a quality school like ours.

Our attention to detail provides each student the readiness to work in any hospital setting, urgent care, community health, private practices, Labs, Insurance companies, travel phlebotomy, blood banks, and mobile phlebotomy! THERES MORE, our clinical instructors have abundance of experience and knowledge in the field of Phlebotomy and Medical Assisting that they can't wait to share with YOU as they prepare you for your career!

Personal

It's business, YES! However, we get personal! The Director of Education sits with each student and provide an individual personal plan with feedback to help students along the way towards becoming

life long professionals in the medical field. We work with students from all walks of life, and encourage each student to ALWAYS put their best foot forward.

We take out time to work on soft skills as well as hard skills! We ensure that each student is prepared for a life-long career of continued success and advancement. Each student will work with our career service specialist to build a resume that catches an employer's eye, and professionalism skills that will put them at the top of consideration for the job they want!

Career Programs

We believe that your learning should be taught by professionals in your career, our teachers are trained in their respective fields with years of experience, career growth and knowledge of field demands, they know what employers are looking for in new grads and are training you to be competitive in your market.

"We are passionate about your learning, and thoughtful about your future" – Jennifer Summerville, Director of Education
