Capability Statement

Forbes Asphalt Maintenance, Inc. is one of the largest, family-owned, full-service paving, and asphalt maintenance companies in Connecticut. Our expertise covers the entire spectrum of asphalt repair; crack sealing, seal coating and pavement marking, to pavement patching and complete new pavement installations. We provide quality products and workmanship for commercial, industrial, and large residential properties.

Our products meet all Federal and State specifications. We are a State of Connecticut DAS Certified SBE contractor. An A+ rated business with the Better Business Bureau. We are members of the Connecticut Business & Industry Association and the Motor Transportation Association of Connecticut. We work closely with property owners and managers to assure they receive the highest quality of work using the most cost-effective means. We work within budgets and provide long term pavement management solutions.

Our staff of highly trained professional installers and applicators are fully licensed and insured, with over 25 years of experience in all phases of bituminous concrete pavements.

Forbes Asphalt Maintenance is your complete resource for all asphalt and concrete services. For over 30 years our founders have been showing property owners, building managers, and facilities directors the real value of pavement preservation and systematic maintenance. Periodic evaluations based upon traffic usage and environmental factors can determine and increase pavement lifespan, appearance, and durability.

At Forbes Asphalt Maintenance, we carefully evaluate surface structure and strength, pavement condition and drainage issues. We develop thorough, cost effective plans and procedures utilizing state of the art equipment to restore, repair, enhance, and prolong pavement durability.

We have the experience and planning expertise to provide quality workmanship. Most of our trained staff has been working in this industry for over 25 years. We only use commercial grade products and federally specified materials in all of our applications.

Whether it is a University, a Hospital, Commercial Real Estate, or a Condominium Complex, our in-house, full-service capabilities allow us to schedule your project, and maintain work-flow control from start to finish. This allows us to provide you with the highest quality, most efficient service at the most economical prices. We work within budgets and provide long-term pavement management solutions.
