

WHEN **MISSION CRITICAL** MATTERS

Consulting • Engineering • Commissioning

Facilities Engineering Associates, P.C. (FEA) is a professional engineering firm with a national reputation in the design and commissioning of mission critical building infrastructure systems. Since 1987, clients large and small have considered FEA a trusted adviser and long-term partner.

As a privately held, 2nd generation, small business we remain committed to our core competencies while delivering exceptional client service.

What sets FEA apart from the competition?

- Experienced Staff
 - Registered P.E.'s, 20+ years' experience, or both
 - Field and Trade Experienced
 - Senior Management Involvement
- 90% of our projects are...
 - Mission Critical Building Infrastructure
 - Business Continuity Focused
 - Campus Power Distribution
 - Central Plants
 - Data Centers
- Our Clients are...
 - ...Fortune 500
 - ...experts in facility construction and management
 - ...continue our relationship for 10, 15,20 years and longer

Key Differentiators that Add Value

- MEP Facilities and Infrastructure is our Core Competency, not just another Market
 - The FEA personnel are specialists, dedicated to infrastructure systems
- Depth of Expertise means FEA provides services not offered by competitors
 - Owner's Representation
 - Short Circuit, Coordination and Arc Flash Studies
 - 3rd Party Reviews
 - 3rd Party Commissioning
- Our Engineers Design, Commission and Operate
 - Field experience during construction and occupancy phases make our Engineers better designers
- Our Long-Term Partnerships Mean Lifecycle Experience
 - We live with our designs...and learn from them...and bring that experience to bear on future projects
