BRIDGET MORGAN is an established agency, specializing in IT staffing and recruitment. From entry-level jobs to the senior-most positions, we have the resources and skills to get you the best talent out there, just in time.

BRIDGET MORGAN was founded by industry veterans bringing more than 30 years of agency and corporate recruiting experience. Our team of highly dedicated recruiters and account managers are committed to your organization's success. Your goals become our goals.

Our award-winning staffing agency has established a reputation as a leader in exceptional talent identification and placement. At BRIDGET MORGAN we're focused on providing you with incredible talent options that match your unique requirements and culture.

Our foundation is rooted in the relationships we've cultivated with individuals, businesses, and organizations. We offer our clients unparalleled reach into local and national networks of candidates and an extensive database of fully vetted professionals that continues to grow each day.

We specialize in Information Technology and our experienced recruiters are dedicated to providing qualified candidates across multiple departments including administration, creative services, engineering, finance, human resources, information technology, infrastructure, management, marketing, and operations. From entry level to your executive staff needs, we stand ready to connect you to the talent you're searching for.

**We provide top-tier consultants and full-time employees for positions of all levels within:**

- Administration
- Creative Services
- Engineering
- Finance
- Human Resources
- Information Technology
- Infrastructure
- Management
- Operations

Our team of recruiters will search and source the best available talent nationwide to meet your needs. From small companies to Fortune 500 corporations, we screen exceptional candidates daily with a wide range of skills, experience, and knowledge. No matter the size of your team, budget, or timeline, our experienced recruiters are ready when you are.

**We source potential talent for a variety of positions including (but not limited to):**

- Applications Design, Development
- Business Analysis
- Database Administration, Development, Reporting
- DevOps
- Network Administration, Engineering, Operations
- Project, Program Management
- Supply Chain, ERP/CRM Systems
- Systems Administration, Engineering
- Web UX/UI Design, Development

Our established professional relationships and networks are expansive and include experienced professionals fresh on the market, passive job seekers considering new opportunities, as well as professional networking groups and industry experts.
