

NEXT GENERATION CONSTRUCTION

CAPABILITY STATEMENT

COMPANY OVERVIEW

Next Generation Construction specializes in distinctive, high-impact finishing elements that defines spaces. This includes European windows, U.S.-fabricated custom ornamental and decorative steel, and miscellaneous metalwork. These components are integral design features—not afterthoughts—and we execute them with the same precision and care as the structural framework itself.

From pre-construction planning and budgeting to subcontractor coordination and on-site execution, we ensure each phase progresses seamlessly, upholding craftsmanship, cohesion, and accountability while meeting schedule and budget objectives. Whether overseeing a ground-up build, historic restoration or refining the final details, we serve as a trusted partner dedicated to transforming vision into enduring results.

WHAT SETS US APART

- Proudly fabricate all products in the United States
- Decades of industry experience supported by meticulous craftsmanship
- Scalable team structure tailored to meet the specific needs of each project
- Expertise in final construction elements that elevate overall design
- Fully OSHA-compliant workforce committed to safety and professionalism
